Fixing Installation Errors in Google Chrome If you encounter an error message when trying to download and install Chrome, don't worry - there are ways to resolve the issue. Fix Most Installation Errors Fix Issues with Specific Error Messages or Use Wayland Chrome can now run smoothly on Linux, supporting both Wayland and X11 display servers. When opening Chrome on Linux, one of these protocols is automatically selected. Learn How Chrome Interacts with Display Server Protocols To interact with certain types of actions, Chrome uses a display server protocol. In case you have trouble with these types in Wayland, you can switch back to X11: Drag and Drop Copy Paste Keyboard, Mouse or Touch Input However, some actions aren't available on Wayland, such as tab dragging using simplified preview thumbnails or windows not being able to be placed at a specific location. How to Override Chrome's Automatic Display Server Protocol Selection From Your Browser: - Go to chrome://flags - Set "#ozone-platform-hint" to X11 or Wayland From the Command Line: - Launch Chrome - For X11: --ozone-platform=x11 - For Wayland: --ozone-platform=wayland Error 1603 and 0x00000643 on Windows If you encounter one of these errors during first-time application installation, report it in the Chrome Help Forum. Fix Error After Installing an App: - Go to Microsoft Fixit - Download and run the program To fix the problem, follow the instructions.
