Most (if not all) of these games feature a "Female Heroine" / "Female Protagonist", and some may also include "NTR" elements. The list will be updated regularly sometimes, so feel free to share your thoughts or recommendations! Games rated as 'S' and 'A' tier are ones I definitely recommend trying. Last edited: Apr 22, 2025 Reactions: someone , SinisterPortal, quincdao and 15 others Hm, Ariadne was cool, but its writing (or translation?) is soooo poor. How can you give S to it at all? About rpg with female protagonist, what about these? Violated Heroine - I don't understand why such a well known game is not in our list? Public Defense Corp Adventures Of Tara Agent Leona Red Haired Demon / it's already translated, just not on this site because of some shota content. Quite funny and specific game, deliberate exhibitionism/promiscuity/prostitution from a powerful and emotionless female MC to collect mana. Fallen Paladin Elena's Life Officer Chloe: Operation Infiltration I've only fought the first major boss so idk how fucked the story would become later on but for now I honestly think it's deserving of an S, one of the hardest hitting opening I've played in any hentai game so far Albeit I'm not that big of an H-game connoisseur or that good at critically rate a story so it's probably a standard difference I'll update my thought later when I'm actually done with the game Last edited: Aug 4, 2023 Reactions: Freminace Underrated thread, kudos for the great work organizing all of this and even stating the type of translation for the games! Reactions: Freminace Where can I download Mayo-chan loves to fantasize? is this still being updated today? Ok checkin out that SAO game Overview: You just wake up without remembering anything, apparently, you're living a dream life, but why does everything seem so odd? You are about to go to university and your father is one of the richest men alive, but the fact that you don't remember anything after waking up makes you very uneasy, so you try to find answers. But who knows, maybe the answers you're looking for are not worth it... Or are they? I guess it's better if you find out for yourself. Give them to us you filthy little perverts! This compression is unofficial and untested, use it at your own risk. The compressing process reduces the quality and can break the game. *PC = Win+Linux Last edited: Feb 3, 2023 Reactions: Twisty, palmergames, Shedlon and 13 others Reactions: Minidora You just wake up without remembering anything, apparently, 3DCG, Animated, Big Ass, Big Tits, Groping, Handjob, Incest (step-cest), Male Protagonist, Masturbation, Milf, Mobile Game, Monster Girl, Oral Sex, Oral Sex, Parody, Point & Click, POV, School setting, Sci-Fi, Tittfuck, Vaginal Sex, Voyeurism Planned: Sandbox This looks interesting, I hope the sandbox is well implemented and the player doesn't have to grind like crazy and walk around without knowing where to go for the events . Let's see how long it takes for the father to "disappear" EDIT 0.7.3: Man the Review manipulation that this thread has is hilarious, the person has the nerve to simply copy and paste the same review with different accounts. The majority of accounts that have given 5 stars did so the day they created the account and never logged in again.(and last year several of them were already eliminated.) Last edited: Jan 23, 2024 Reactions: Doom Marine, Fapmaister, Yamemai and 6 others Sandbox? Careful with that. Reactions: Aa11 and NoMansMind Page 2 How often must I say it...? Screenshot from other games (or their scene designers) are NOT renders. They are screenshots/captures. I will take that challenge. Reactions: Doom Marine I don't normally comment on initial releases (I don't normally comment, period), and I don't know about any 'rendering', but this is a rather well put together game, for its current state. Everything is smooth, the English is actually pretty good. I especially like the way some characters, like Bulma, for example, have animations during 'idle time' (eg, scenes where you need to click to proceed/go somewhere). Story is actually better than I expected. Kudos to the dev, especially if they can keep up this level of work. Looking forward to seeing where this goes. Reactions: Doom Marine, hentai charley and Naughty Copy unsure why part of act6 was cut out. here is an edited file (and backup) that adds the missing scene recommended to save before the two choice prompt just in case here we go again... to many side characters, focus on main HOT ones like Misato Asuka Bulma, Asuna , the ones from Kimetsu no yaiba mb, and 3 or so more, BUT NO 30 CHARS , FOCUS otherwise in the end it no gonna reach anything, to many , do some first add others after, do a second part or something, and so . but 30 chars at once BAD END. Reactions: hentai charley Dev might want to work non the clipping issues with the clothes. They can be seen even in the example screenshots. The one with D.V.A. Reactions: Naughty Copy Waiting for the hero with the 0.2.0 Reactions: Minidora Where are the girls from Bleach? Bleach has a lot of sexy girls, I think more than DBZ, Naruto and One Piece individually. Mmm, Ranguku and Yoruchi! Would love to see some of them here, its always a possibility in the future. Regarding sandbox, I always hate it, its seldom used well. If they just use it as a map system to decide which L1 to pursue, that would be fine. But, time/money/stat management and grinding for scenes would be the worst outcome. All these things are a sign of an empty and soulless game, something which has no real substance but adds filler to pad out the playtime with busywork Reactions: Eponymous_01, hentai charley, ThaDude1977 and 2 others Page 3 Quite short, and sandbox elements are already present, but there's no grind, it's only for navigation. Though at this stage, the sandbox is useless, as the path is straight-forward. Characters look good, animation was also good. I did not like the white noise sounds in between gameplay. And whomever designed the drone shooting sequence needs to burn in hell! WTF is up with that, why is it going so fast, this is a fap game, not COD-drone shooter? I'm playing on a laptop and I had to break out my gaming mouse, and still I managed to get through only by spamming randomly. Such a useless and pointless minigame in an Adult VN, completely breaks the flow, kills the boner and halts progression. Please remove it, or at least add the option to skip it. No hero with the 0.2 Ver ? Question: are you able to romance every girl, or are there limits? Cause Tsunade is one I'll definitely romance. We are planning on having different routes for every character, so we will definitely have H scenes with Tsunade
