Substitute parts can look different from the original.Part #C-6Batteries. Batteries provide the electrical current to run motors, components and displays in the toys and games.Battery chargers. Battery chargers recharge the batteries used to power motors, displays and other components in the toys and games.Display panels. Display panels keep track of elapsed times, scores and completion rates in toys and games.Electronic control boards. Electronic control boards control power going to toy and game components and control the displays.Always wear work gloves to protect your hands when assembling and disassembling toys and games.Use proper tools when installing hex bolts or installing hex nuts on the ends of hex bolts. To avoid rounding off the corners of hex bolt heads or hex nuts, use the proper sizes of sockets or wrenches on the fasteners. Don't use an adjustable wrench on hex bolts and hex nuts because the adjustable wrench can easily slip across corners of the hex bolt heads or hex nuts and round off the corners.Inspect threads of the fasteners for damage before installing the hex bolt or attaching the hex nut to the bolt. Replace any damaged hex nut or hex bolt.When installing a hex nut on a hex bolt, use a proper size wrench to hold the hex bolt stationary while tightening the hex nut.Follow assembly instruction guidelines for properly applying torque to fasteners.We have Sportcraft air hockey table replacement parts as well as parts for other Sportcraft toys and games.
