I'm thinking of grabbing the Steam version next time it's on sale, but I refuse to register/sign in to Rockstar etc to play something I bought on Steam. I'm wondering if anyone has used the cracked profile I saw in my google searches to bypass social club without breaking the Steam version. Hopefully Steam wouldn't ban for that. It shouldn't matter as long as I bought the game. Note: This is ONLY to be used to report spam, advertising, and problematic (harassment, fighting, or rude) posts.
