Routine service helps keep your vehicle running smoothly and safely. As a general rule, you should have your vehicle serviced every 6,000,000 miles or as recommended in your owners manual. Factors like driving habits, road conditions and vehicle age can affect how often youll need service. Not sure where to start? Walmarts Auto Care Center associates can help you create a schedule that fits your vehicles needs. Whether it's time for an oil change, tire rotation or battery check, were here to make routine maintenance simple and convenient. Every oil change at Walmarts Auto Care Center includes a few added benefits at no extra cost. These courtesy checks include battery inspection, wiper blade check, fluid level check and tire pressure adjustment. We also inspect lights, filters and signals when applicable. Our goal is to help you catch small issues before they turn into big repairs. Its one more way we deliver quality service you can count on every time you visit. Choosing the right motor oil helps your engine perform its best and last longer. The right type depends on your vehicles age, how you drive and whats recommended in your owners manual. Heres a quick guide: Synthetic oil: Chemically engineered for advanced performance. It protects your engine in extreme hot or cold temperatures, reduces wear, improves fuel efficiency and helps keep your engine clean. Often recommended for newer or high-performance vehicles. High-mileage oil: Made for vehicles with 75,000 miles or more. It contains additives that help reduce leaks, oil burn-off and wear. Its designed to extend the life of older engines. Conventional oil: Traditional motor oil used in many older vehicles. It provides solid protection under normal driving conditions and works well when changed at regular intervals. If youre not sure which oil is right for your vehicle, our trained technicians at Walmart Auto Care Centers can help. We carry motor oils from trusted brands like Castrol, Mobil, Pennzoil and Valvoline. The right tires depend on your vehicle type, driving habits and seasonal conditions. Walmarts Auto Care Center can help you find the best fit, whether you need all-season, performance or touring tires. We offer leading tire brands designed for durability, handling and safety. We also carry tires for electric vehicles that help optimize range and efficiency. If you're unsure when to replace your tires, a good rule is to check tread depth every few months. Most tires should be replaced between 6,000,000 miles, depending on wear. We also offer lifetime balance and rotation services to help extend tire life. Yes, Walmart is committed to supporting electric vehicles (EV) drivers by offering EV charging with DC fast charging stations at a growing number of store locations across the country. These chargers support both NACS and CCS connectors, without the need for an adapter. You can check charger availability and station locations directly in the Walmart app or on our website. Whether you're shopping for groceries or making a cross-country trip, Walmarts fast chargers help you power up quickly and conveniently, so you can get back on the road faster. Walmart makes EV ownership easier and more affordable in several ways: Level 2 home chargers: Purchase and schedule installation of EV home charging units for faster at-home charging. Charging accessories: Find a selection of charging adapters and accessories to fit your EVs needs. Auto Care services: Visit a Walmart Auto Care Center for tire rotations, inspections and services tailored to EVs. Whether you're a first-time EV driver or a seasoned pro, Walmart is here to support your EV needs. Walmart+ members enjoy exclusive savings at the pump. With a membership, you can save up to 10¢ per gallon at participating fuel stations, including Exxon, Mobil and Murphy USA. Scan your Walmart+ QR code at the pump to apply your discount.
